## Blank Panels, Rack Screws, Recessed Brackets, Miscellaneous

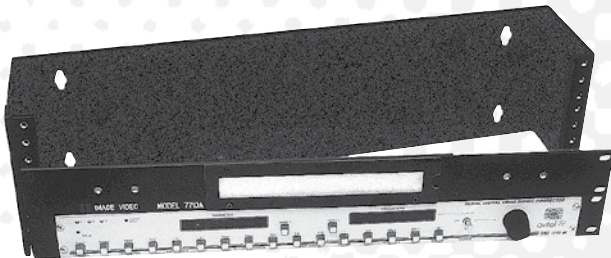

SP-1 and SP-2V Blank Spacers

SP-1V-RO Blank Spacer

KAE Corporation offers the broadcast engineer a range of blank spacers, with or without vent holes to assist in air flow. The standard 19" wide spacers are made from 14 and 16 gauge steel, finished in black textured powder coat. Vented versions come in 1U, 2U and 3U models.

HWM-3 3 U Hinged Wall Mount Bracket with two control panels

The Hinged Wall Mount Brackets from KAE Corporation offer the engineer a means of mounting 19" wide electronic products or patch panels to walls. The brackets are 4" deep and have 16" centers wall mounting holes. 10/24 screws are included.

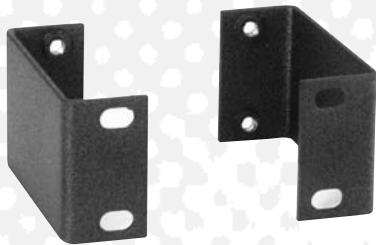

The Power Block Holster allows the engineer to clean up all the remote power supply blocks from notebook PCs and other electronics that are located in the rear of your racks. This convenient holster has several screw holes on the rear and sides for flexibility of mounting. The holster handles power supply blocks up to 2" x 3 1/8" and is 4 1/2" deep.

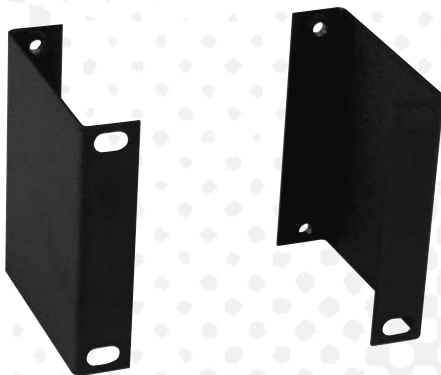

PB-1 Power Supply Block Holster

Rack Screws

RBK-1 1U 3" Deep Recessed Bracket

RBK-2 2U 3" Deep Recessed Bracket

CBM-1 1U Cable and Wire Manager

Cable Relief Bars. These units are rack mountable. The HCRB mounts across the rear of your rack. The ICRB-1, 4 and 8 mount inside your rack. The ICRB-4 has a 4" offset and the -8 has a 8" offset. The round stock is 5/16 in diameter for heavy use. These units are great for cable relief at the rear of your equipment. ICRB units are designed for Stantron APW™ Racks.

Rack Screws. Black Oxide Truss head Phillips Rack Screws. 10/32 x 3/4 and 10/32 x 3/8 versions. Includes black nylon washers. Quantities – 25, 100 or 500.

RBK-1 1U 3" Deep Recessed Bracket to mount any 1 U product. Great for mounting power strips at the rear of racks with rear doors. The RBK-2 is the 2U version. Sold in pairs.

ICRB-1, 4, 8 and HCRB Cable Relief Bars

In order to organize your cabling and wiring within your racks, KAE Corporation now offers a 1 rack unit (1.75" height) cable manager, the CBM-1. The hangers, mounted on the panel are split in the front to allow for easy insertion or removal of cables.
