## Breakout Panels

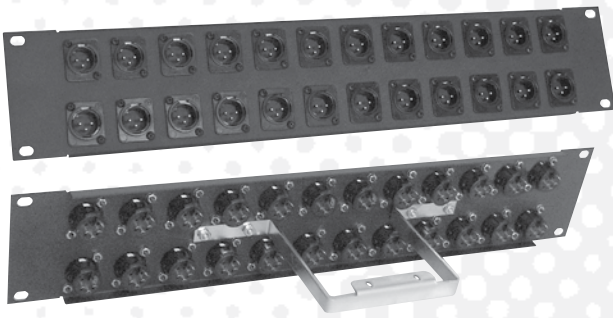

BOP-1 1U Breakout Panel, 6 BNC+12 XLR

BOP-2 1U Breakout Panel, 16 XLR

BOP-3 1U Breakout Panel, 16 BNC

BOP-4 2U Breakout Panel, 24 XLR, Rear Cable Relief Bar

BOP-5 1U Breakout Panel, 16 9-pin D, Rear Cable Relief Bar

To facilitate cabling connections for flight cases, trucks and other applications for remote shoots, KAE Corporation has developed several versions of breakout panels. All breakout panels include all connectors fitted. The BOP-1 (1U) has 6 BNC female to female connectors for video and 12 XLR connectors for stereo audio. The BOP-2 (1U) has 16 XLR connectors. The BOP-3 (1U) has 16 BNC female to female connectors. The BOP-4, a 2U breakout panel with cable relief bar has 24 XLR Audio connectors. The XLR connectors can be either male or female, please specify when ordering.

The BOP-5, a 1U breakout panel with cable relief bar holds 16 9-pin D connectors. The D connectors are rear solder type. Units comes with connectors fitted.
