Stationary Shelves and Monitor Masks

SS-5 5U Stationary Shelf with dual 9" JVC Monitors

The Rack Mount Stationary Shelf series is great for mounting VCRs, Audio Equipment, PC and Video Monitors, Test Equipment, Tape Jackets, and countless other products that don't lend themselves to installing rack slides without customization. The Rack Mount Stationary Shelves will meet all of your rack mounting needs. The SS-2, SS-3, SS-5 SS-6 and the DSS-2 units come with venting on their bases for improved air flow.

The DSS-2 shelf is a deep 23" 2U stationary shelf with adjustable rear bracket supports. The rear brackets extend out to fit 30" deep racks. These supports also provide additional carrying capacity.

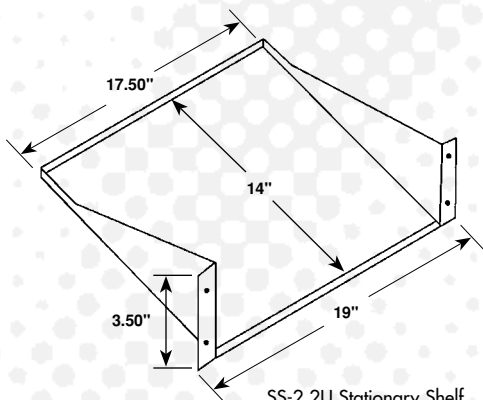

SS-3 3U Stationary Shelf

The Rack Mount Stationary Shelves are made from 16 gauge steel providing exceptional strength for mounting all equipment that is 17.375" wide. The range of stationary shelves include 1U to 6U.

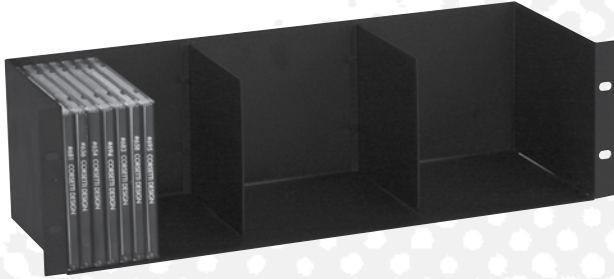

Each Rack Mount Stationary Shelf is finished with black textured powder coat to provide scratch resistance. There is a 0.25" flange on the front of each stationary shelf providing some safety for your equipment. On the rear of each shelf is a 0.50" flange.

DSS-2 2U 23" Deep Stationary Shelf

KAE Corporation has designed a universal Media Storage Shelf, MSS-3. The shelf is 3 rack units in height and has stationary dividers allowing for a variety of video and audio tapes, CDs and DVDs.

MSS-3 3U Media Storage Shelf

SS-6 with PCM-14 6U Stationary Shelf with 14" PC Monitor Mask

KAE Corporation now offers 4 versions of PC Monitor Masks. Finished with black textured powder coat, the masks are meant as options to the SS-6 6U stationary shelf. Masks are available for 14", 15", 17" and 19" PC monitors. The model numbers are PCM-14 (or 15, 17 or 19).

KAE also offers the M-13, a monitor mask for the SONY 1350 and 14N2U series video monitors.

DIMENSIONS AND CAPACITIES

Model #	Rack units	height	depth	capacity
