Waveform/Vectorscope Rack Shelves

WFM-3 with Storage Drawer

WFM-3 with Blank Panel

The WFM-3 Rack Shelf is for mounting Tektronix™ style half rack test equipment. The unit comes with adjustable rear brackets and internal straps for additional structural integrity. This makes the WFM-3 especially useful for mobile applications. Options include the WFM-BP Blank Panel for the unused half of the frame and the WFM-DR, a pull out half rack width utility drawer.
